

YMCA RECREATIONAL SWIM

Two to three times each year, we arrange for the children to go swimming with their class at the YMCA. The Y provides certified lifeguards and has the children that desire to go to the deep end of the pool demonstrate their ability to swim. Teachers accompany the students to the Y and provide additional supervision while the children are in the pool. Please fill out the following form if you grant your child permission to participate in this program.

I hereby give permission for _____ to participate in the YMCA recreational swimming program during the 2008-2009 school year.
